Ruthvika Reddy Daidala

9391116796 | *ruthvikadaidala@gmail.com* | **in** https://www.linkedin.com/in/ruthvika-daidala-1539372b4

SUMMARY

Computer science student with hands-on experience in web-based projects and core programming concepts. Interested in full-stack development and machine learning, with a focus on building practical, real-world software solutions.

EDUCATION

Chaitanya Bharathi Institute of Technology, Telangana, India sept 2023-present
Bachelor of Technology, Information Technology– CGPA: 9.14

Sri Chaitanya junior college, Telangana, India 2021-2023
Board of Intermediate Education- percentage:96.6%

Sri Chaitanya High school, Telangana, India 2016-2021
Board of Secondary Education- GPA:10

TECHNICAL SKILLS

- **Languages:** Python, Java
- **Tech stack:** Machine Learning**,** MERN
- **Databases and DBMS:** MySQL
- **Big Data:** Mongo DB
- **Core Competencies**: Data Structures, Object-Oriented Programming

PROJECTS

Personal Finance Management leveraging Web-Based Analytics and Machine Learning

- **Technologies:** HTML, CSS, JavaScript, Local Storage, Scikit-learn (for ML module)
  - Developed a personal finance web application used by 20+ users to monitor daily income and expenses
  - Utilized Local Storage to securely store and manage user-specific financial data on the client side
  - Implemented a Scikit-learn model to auto-categorize expenses based on user input
  - Enhanced budget planning through categorized financial insights

AI-Enabled Campus Placement Portal

- **Technologies:** HTML, CSS, JavaScript, Local Storage, Machine Learning, RAG Chatbot
  - Developed a campus recruitment portal supporting **3 user roles (students, recruiters, coordinators)** and managing **50+ simulated job listings**
  - Implemented **skill-based job matching and AI chatbot assistance**, improving opportunity discovery and automating application tracking for **100+ test users**

Earthquake Magnitude Prediction Using Machine Learning

- **Techchnologies:** Python, Scikit-learn, Streamlit
  - Trained 6 regression models using 18+ seismic features (depth, latitude, longitude, intensity, etc.), achieving RMSE ≈ 0.18 and R^2 ≈ 0.82
  - Built an interactive Streamlit app enabling real-time predictions, model comparison, and visualization, reducing manual analysis time by 40%

EXPERIENCE

AICTE – Edunet Foundation | Virtual Internship **Jul 2025 – Aug 2025**

- Built a tree species classification model using Python and CNN on a dataset of 20 species, achieving 90%+ accuracy
- Applied AI and Data Analytics techniques to automate species identification, reducing manual classification effort by 35%

CERTIFICATIONS

- Certified in web development by Internshala
- Certified in Mongo DB as an Associate Developer

ACHIEVEMENTS AND POSITIONS OF RESPONSIBILITIES

- Leaded a team of 6 in Smart India Hackathon, Job/Internship portal
- Led a team of 4 in Amazon ml challenge.
